

**Life Science Enrichment Workshop: 2-Day Junior Medical Diagnostic Officer (Primary)**
**The Life Science revolution is here. Give your child a head start!**

Rapid advances in the field of the life sciences are impacting our health, food, laws and ethics and will fundamentally change the way we live and work. Our children need to learn these new skills and stay competitive! Genecet Biotechnologies is proud to present a series of Life Science workshops exclusively for Primary 3 to 6 students. Conducted by our experienced consultants, these workshops consist of outdoor experiences as well as experiments.

**PROGRAM OUTLINE:**
**2-Day Workshop 9am - 6pm:**

*Students will be presented with a case scenario - An epidemic in a small town and people are dying. Students will take on the role as a Junior Medical Diagnostic Officers and be introduced to the various methods of analysis and the ability to derive at parallel comparisons to a real epidemic event. Students will attain a sense of appreciation for medical technology advancements, approaches undertaken by real medical scientists and the world of Microbiology.*

Program Highlights are:

- **Students will be introduced to Microorganisms associated with infectious diseases**
- **Students will be introduced to effect of antibiotics and its properties**
- **Students will perform bacteria culturing to determine the causative agent**
