

### Life Science Enrichment Workshop: 1-Day Young Environmentalist (Primary)

#### The Life Science revolution is here. Give your child a head start!

Rapid advances in the field of the life sciences are impacting our health, food, laws and ethics and will fundamentally change the way we live and work. Our children need to learn these new skills and stay competitive! Genecet Biotechnologies is proud to present a series of Life Science workshops exclusively for Primary 3 to 6 students. Conducted by our experienced consultants, these workshops consist of outdoor experiences as well as experiments.

#### PROGRAM OUTLINE:

##### 1-Day Workshop 9am - 6pm:

Students will take up the roles as Environmentalist employed by the government to investigate the source of pollution in a village. They will be required to determine the culprit of the pollution problem by analyzing the results obtained from their pH indicator and the data logger. Students will be introduced to the delicate balance of the mangrove ecosystem and impact of the mangrove habitat to mankind!

##### Program Highlights are:

- Students will be exposed to the importance of preserving our mangrove swamp while appreciating the eco diversity through their visit to the Sungei Buloh Wetland Reserve
- Students will learn about the various symbiotic relationships between the flora and fauna in the various nature reserves
- Students will learn how to extract anthocyanins from red cabbage to make a pH indicator solution.

Please tick the type of programme and date you want your child to enroll in:
